

China Road And Bridge Corporation

China Road And Bridge Corporation (CRBC) undertakes the design, construction, operation, maintenance and project management of building and civil engineering works in both public and private sectors.

Protecting the environment is the responsibility of every staff in the organization. CRBC is committed to sustainable construction and minimise any adverse impact on the environment resulting from our business activities.

We are committed to delivering services with minimal impact to the environment through the following principles: -

- ★ Focus on prevention of pollution, waste minimization and resource conservation as critical considerations within our core management processes.
- ★ Compliance with applicable legal requirements and other requirements to which the Company subscribes which relate to its environmental aspects.
- ★ Regular performance reviews to ensure that environmental objectives and the requirements of Interested Parties are met.
- ★ Provision of staff training to ensure understanding, implementation and development of these principles throughout our business.
- ★ Continual improvement

All staff will follow the requirements of the Environmental Management System in the performance of their tasks and will ensure this policy is supported and maintained. This policy will be communicated to our customers, suppliers, and subcontractors. It will also be made available to the public whenever requested.
